About Me

I am Vikash Singh, a React Native Developer with over 1 year of experience in mobile application development. I have hands-on experience in building and maintaining cross-platform applications using React Native, integrating APIs, and creating smooth user experiences. I am eager to contribute my technical skills and continue growing as a mobile application developer

Skills

- React Native (Android & iOS)
- JavaScript
- UI/UX Implementation
- API Integration (REST APIs)
- State Management (Redux, Context API)
- Navigation (React Navigation)
- Mobile App Deployment (Play Store & App Store)
- Firebase real-time database, Google auth and firebase using properly.
- Redux / Redux Toolkit
